DESCRIPTION, POLICIES, AND CONSENT FOR INDIVIDUAL THERAPY

This document contains important information about my services and business policies. Please read it carefully and ask me any questions that arise. Your signature indicates that you understand and accept the terms of treatment.

Psychotherapy varies depending on the particular problems being treated and the theoretical approach practiced by the providing psychologist. It is therefore important that you take care in selecting a therapist that fits your style and treatment goals. Our first few sessions will involve an evaluation of your current problems, concerns, and needs. By the end of the evaluation period, I will offer you my clinical impressions and a recommended approach to treatment. During this time, it is important that we both consider if I am the best person to provide the services you need to meet your specific treatment goals. If indicated, a referral to a more appropriate therapist will be provided (e.g., your presenting problem is outside the scope of my clinical expertise). As therapy involves a commitment of time, energy, and money, it is important that you feel comfortable working with me. The goals of therapy are arrived at by mutual collaboration between us. The goals we establish will be reviewed during the course of our work in order to assess and/or modify the focus of therapy according to your needs. If any questions or concerns about our work together arise at any point during treatment, please bring them to my attention.
